EMPLOYMENT

Associate Software Engineer	**Elvago Technologies Codemonk Bangalore**	**August 2020 - Present**

- Working as a Mobile App developer, my day-to-day job includes working on some challenging mobile applications. Simultaneously I am also responsible for ensuring the code quality of other mobile app projects by doing timely code reviews.
- I have also worked on an enterprise mobile app that is used for managing spaces at the workplace. This app is built considering the safety of employees from covid-19 like pandemic and at the same time ensuring productivity of the employees. This app is Live on the play store.
- I have also worked on a vehicle fleet tracking mobile app which helps track the vehicles in real-time built using flutter and firebase.

Flutter Developer	**Altorum Leren Private Limited Bangalore**	**June 2019 - August 2020**

- I have developed an organic food delivery mobile app called "ibOrganic" for a client, The app is live for public use on the Play store and the App store with 100+ daily active customers.
  Play Store: https://play.google.com/store/apps/details?id=com.ibo.iborganic
  App store: https://apps.apple.com/in/app/iborganic/id1505275877
- I have also developed an app for Project and Resources Management in the cloud used internally at Altorum Leren.
- I have also worked on an AMC mobile app that's capable to work both offline and online

Android Intern	**Hands in Technology Mumbai**	**June 2016 - July 2016**

- Worked as a part of an Android App development Frontend team where we built a mobile app for an eCommerce called SWWN which sells cosmetics.
